# Grand Prix™ Artist Brushes

Silver Brush  
LIMITED®

## Traditional

The traditional length filbert has been a favorite of artists throughout the ages because it's versatility allows painters to produce broad strokes, detailed lines and soft edges. Silver's **Grand Prix™** Series 1003 offers a full range of sizes in this series.

## Long

Our long filbert, (Series 1034 - 20% longer than the traditional filbert) is ideal for artists who want to manage color and manipulate brush strokes on the canvas, but with greater precision than they can achieve with Xtra long filberts.

## Xtra Long

We developed the Xtra Long filbert, (Series 1027 - 40% longer than traditional filberts) to provide tight control on the canvas and the ability to reach the painting surface while sketching and blocking-in color, and viewing a scene or portrait subject.

## THE STORY OF 3 FILBERTS

Silver's unique range of filberts offers serious artists the choices you can only find in the world's finest bristle brushes, **Grand Prix™** from Silver Brush Limited.
